CITIZEN EYE GHANA

MOTTO: "BE A CITIZEN, PROTECT OUR COUNTRY"

THE REGIONAL CHAIRMAN,  
NEW PATROTIC PARTY (NPP)  
KOFORIDUA EASTERN REGION.

Dear Sir,

**PETITION ON THE SELECTION OF THE DISTRICT CHIEF EXECUTIVE (DCE)  
OF ACHIASE DISTRICT**

We as a Civil Society Organization (CSO) who also believes in the ideologies of the New Patriotic Party (NPP) write to your reputable office to petition the selection criteria of the District Chief Executive in the Achiase District in the Eastern Region of Ghana.

It has come to our notice and the confirmation was made that certain group of people including the current DCE Eric Amponsah have set up machinery to prevent potential party members who qualifies for the same position and are willing to work to help reorganize the party at the grass root level in the district to be enlisted for approval by the hierarchy.

As a CSO which advocates for the correction of democracy deficits, human rights, good governance and demands transparency and accountability of government, institutions and businesses has keenly observed how our beloved district keeps retrogressing. There seem to be some sort of neglect to Achiase and its surrounding towns and we have been denied the necessary developments largely because of poor leadership especially from the reigns of Eric Amponsah, which in effect has brought little change in the livelihoods of the youth and the general populace in the district.

We believe it is time to have someone with great commitment, vision, passion and someone who understands and knows the problems facing the people better and has the desire that can help uplift their lives and the face of the district to be given a chance. We don't have any interest but needed a fair playing field for all the potential aspirants to pass through the selection process.

This discrimination has resulted in the suspension of some party members in the district and we call on the authorities at regional level to investigate these machinations which could affect the party's strides in 2024 election because it will be a suicidal for us as an organization believing the ideologies of NPP to allow the party to go to opposition. We entreat those involved in the selection process of the DCE in the region to reconsider the name(s) submitted to them for onward approval to the presidency.

It is our fervent hope that our petition will be given the needed attention and immediate action.

Thank you.

Alex Kwaku Tetteh

(FOUNDER AND PRESIDENT)
